Level 3: Inputs for the assets or liabilities that are not based on observable market data (that is, unobservable inputs).

As at 30 September 2017, the Group's financial instruments measured and recognised at fair value on a recurring basis are as follows:

	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000	Total RM'000

1) Review of Performance (Cont'd)

a) Quarter ended 30 September 2017 ("3Q 2017") compared with quarter ended 30 September 2016 ("3Q 2016")

The Group's revenue in 3Q 2017 was RM2,269.3 million, an increase of 3% compared with RM2,199.7 million in 3Q 2016.

The higher revenue for this quarter was mainly attributable to:

1. an increase in revenue from the casino business in United Kingdom ("UK") by RM136.3 million or 36%, mainly contributed by overall higher hold percentage and higher volume of business from its premium gaming segment, as well as the strengthening of GBP against RM. Excluding the impact of foreign exchange movement, revenue from the casino business in UK increased by 28%; and
2. an increase in revenue from the leisure and hospitality business in United States of America ("US") and Bahamas by RM41.6 million, mainly due to an improved commission structure with the New York state authority on Resorts World Casino New York City ("RWNYC")'s gaming operations. This was offset by
3. a decrease in revenue from the leisure and hospitality business in Malaysia by RM108.4 million, mainly due to lower hold percentage from the mid to premium segments of the business. The overall business volume grew during the quarter. The opening of new attractions at SkyPlaza in March 2017 has contributed significantly to the increase in the revenue from the mass market.

The Group's adjusted EBITDA in 3Q 2017 was at RM437.9 million compared with RM582.7 million in 3Q 2016, a decrease of 25%. The lower adjusted EBITDA was mainly attributable to:

1. a decrease in adjusted EBITDA from the leisure and hospitality business in Malaysia by RM161.3 million, mainly due to lower revenue and higher cost relating to the premium players business and higher operating costs incurred for the new facilities under Genting Integrated Tourism Plan ("GITP"); and
2. an adjusted loss before interest, tax, depreciation and amortisation ("LBITDA") of RM24.5 million was recorded in 3Q 2017 from the "investments and others" segment, as compared to an adjusted EBITDA of RM15.2 million in the same quarter last year. The LBITDA in 3Q 2017 was mainly related to foreign exchange losses on the Group's USD denominated assets as a result of the strengthening of RM against USD during the current quarter. This was mitigated by
3. an increase in adjusted EBITDA from the leisure and hospitality business in US and Bahamas by RM38.4 million mainly due to lower LBITDA from Resorts World Bimini ("Bimini operations") as a result of lower operating costs; and
4. an increase in adjusted EBITDA from the casino business in UK by RM11.7 million, mainly due to higher revenue offset by higher level of bad debt.

The Group's profit before taxation of RM249.8 million in 3Q 2017, decreased by 52% as compared with RM519.6 million in 3Q 2016. The decrease in profit before taxation was mainly due to:

1. lower adjusted EBITDA as mentioned above;
2. reversal of previously recognised impairment losses of RM49.2 million from UK operations in 3Q 2016; and
3. recognition of a one-off gain of RM43.6 million from the disposal of leasehold land in Malaysia in 3Q 2016.

b) Financial period for the nine months ended 30 September 2017 (“YTD Sept 2017”) compared with nine months ended 30 September 2016 (“YTD Sept 2016”)

The Group’s revenue in YTD Sept 2017 was RM6,784.7 million, an increase of 2% compared with RM6,648.7 million in YTD Sept 2016.

The increase was mainly attributable to:

1. higher revenue from the leisure and hospitality business in the US and Bahamas by RM105.4 million or 10%, mainly due to an improved commission structure with the New York state authority on RWNYC’s gaming operations as well as the strengthening of USD against RM. Bimini operations recorded lower revenue mainly due to lower hold percentage and volume of business. Excluding the impact of foreign exchange movement, revenue from the leisure and hospitality business in the US and Bahamas increased by 4%; and
2. higher revenue from the leisure and hospitality business in Malaysia by RM26.3 million, mainly contributed by significantly higher revenue from the mass market following the partial opening of new facilities under GITP since December 2016. This was offset by lower revenue from mid to premium segments of the business because of lower hold percentage although the volume of business was much higher.

The Group’s adjusted EBITDA in YTD Sept 2017 was RM1,537.8 million as compared to RM1,689.2 million in YTD Sept 2016, a decrease of 9%. The lower adjusted EBITDA was mainly attributable to:

1. a decrease in adjusted EBITDA from the leisure and hospitality business in Malaysia by RM213.6 million mainly due to higher cost relating to the premium players business and higher operating costs incurred for the new facilities under GITP, mitigated by higher revenue; and
2. a decrease in adjusted EBITDA from the casino business in UK by RM66.4 million, mainly due to lower revenue and higher level of bad debts. This was mitigated by;
3. an increase in adjusted EBITDA from the leisure and hospitality business in US and Bahamas by RM105.6 million, mainly due to higher revenue from RWNYC operations and lower operating costs following the cessation of Bimini SuperFast cruise ferry operations in the first quarter of the previous year.

The Group’s profit before taxation of RM840.9 million in YTD Sept 2017 was lower by 35% compared with RM1,293.8 million in YTD Sept 2016. The lower profit before taxation was mainly due to:

1. lower adjusted EBITDA as mentioned above;
2. higher depreciation and amortisation by RM135.4 million, mainly from Malaysia operations due to the commencement of operations of certain facilities under GITP since end of 2016;
3. impairment of certain assets relating to the Bimini and Malaysia operations in the current period totaling RM50.6 million; and
4. reversal of previously recognised impairment losses of RM49.2 million from UK operations in YTD Sept 2016; mitigated by
5. higher interest income by RM58.8 million mainly from the Group’s foreign currency denominated investment.

2) Material Changes in Profit before Taxation for the Current Quarter (“3Q 2017”) compared with the Immediate Preceding Quarter (“2Q 2017”)

Profit before taxation for 3Q 2017 was RM249.8 million compared to 2Q 2017 of RM246.8 million. The higher profit before taxation was mainly due to:

1. lower depreciation and amortisation by RM57.4 million, mainly due to impact as disclosed in Part I, item (d) above;
2. lower adjusted LBITDA from the investments & others segment by RM23.4 million mainly due to lower foreign exchange losses on the Group’s USD denominated assets; and
3. higher adjusted EBITDA from the casino business in UK by RM18.1 million mainly due to higher revenue offset by higher level of bad debts. This was offset by
4. lower adjusted EBITDA from the leisure and hospitality business in Malaysia by RM98.3 million due to lower hold percentage from mid to premium segments of the business although the volume of business was higher; and
5. lower adjusted EBITDA from the leisure and hospitality business in the US and Bahamas by RM33.2 million mainly due to lower revenue from RWNYC and Bimini operations.

3) Prospects

Global economic conditions are expected to further strengthen in the fourth quarter of 2017, driven by growth in consumption and investments in certain advanced economies and improvements in global trade. The Malaysian economy is expected to continue on its growth trajectory, primarily driven by stronger domestic and external demand.

The outlook for international tourism is expected to remain positive. Meanwhile, the regional gaming industry remains promising as evidenced by the continued improvements in performances recently reported by gaming operators in Macau and Singapore.

The Group remains optimistic on the growth potential of the leisure and hospitality industry in the medium to long term.

In Malaysia, the Group remains focused on the development of GTP at Resorts World Genting (“RWG”) as it prepares to roll out the much anticipated 20th Century Fox World Theme Park as well as the new indoor theme park next year. With the recent additions under GTP that complement the existing attractions at RWG, the Group will focus on optimising overall operational efficiencies and driving revenue growth.

In the UK, the Group is encouraged with its performance in the premium players business segment despite the challenging operating environment. The Group’s strategy to reduce short term volatility in this segment continues to be successful in delivering sustainable performance. As for the non-premium players business, the Group will continue its efforts on strengthening its position and improving business efficiency in this segment. Visitation growth in Resorts World Birmingham has been encouraging and emphasis will continue to be placed on stabilising the operations and growing the business at the resort.

In the US, RWNYC maintained its steady business growth and remains the market leader in terms of gaming revenue in the Northeast US region, despite growing regional competition. The Group will continue intensifying its direct marketing efforts to drive visitations and frequency of play at the property. Additionally, RWNYC has embarked on a USD400 million expansion which will include various new attractions, such as a 400-room hotel, F&B outlets, retail stores and entertainment facilities. In the Bahamas, the Group will focus its marketing efforts on the leisure market to drive visitations and volume of business at the resort as well as continuing its cost rationalisation initiatives.

4) Variance of Actual Profit from Forecast Profit

The Group did not issue any profit forecast or profit guarantee for the year.

5) Taxation

**GENTING MALAYSIA BERHAD ANNOUNCES RESULTS FOR THE
THIRD QUARTER AND NINE MONTHS ENDED 30 SEPTEMBER 2017**

- **Significant visitation growth at Resorts World Genting (“RWG”) as the public warms up to new GITP attractions**
- **RWG recorded stronger occupancy rates at 96% in 3Q17 amidst higher room inventory**
- **Lower hold percentage and higher ramp up costs impacted Group’s performance in Malaysia in 3Q17**

KUALA LUMPUR, 23 November 2017 – Genting Malaysia Berhad (“Group”) today announced its financial results for the third quarter (“3Q17”) and nine months ended 30 September 2017 (“9M17”).

The Group’s 3Q17 total revenue grew by 3% to RM2,269.3 million. However, the adjusted earnings before interest, taxation, depreciation and amortisation (“EBITDA”) decreased by 25% to RM437.9 million. During the quarter, profit before tax (“PBT”) and net profit declined to RM249.8 million and RM172.2 million respectively.

Compared to the same period last year, the Group’s 9M17 revenue was up by 2% to RM6,784.7 million. However, adjusted EBITDA and PBT declined by 9% and 35% to RM1,537.8 million and RM840.9 million respectively. Net profit was 44% lower at RM640.7 million.

3Q17 Results

The Malaysian leisure and hospitality business reported lower revenue in 3Q17 despite higher volume of business aided by the opening of new attractions and facilities under the Genting Integrated Tourism Plan (“GITP”). This was primarily due to lower hold percentage in the mid to premium players business segment. This segment’s lower adjusted EBITDA for 3Q17 was attributable to high operating costs and a decline in revenue. The Group also incurred additional operating expenses from the ramping up of new facilities under GITP.

Despite the ongoing GITP development work at RWG, the resort welcomed 6.4 million visitors in 3Q17, a notable 25% growth from the same period last year. Occupancy rate at RWG’s hotels was higher at 96% amidst an increase in room inventory following the introduction of the newly refurbished Theme Park Hotel. Meanwhile, the Group anticipates the launch of the premium suites at SkyPlaza in the coming month to complement the new and existing attractions at RWG. The Group is also looking forward to the roll out of the much anticipated 20th Century Fox World Theme Park as well as the new indoor theme park in 2018 which will further enhance the guest experience at RWG.

The Group’s UK operations achieved higher revenue and adjusted EBITDA of RM516.3 million and RM53.8 million respectively in 3Q17, mainly attributable to higher volume of business and hold percentage from its premium players business segment. The Group also benefitted from the favourable foreign exchange movement of GBP against RM during the period.

In the US and Bahamas, the Group recorded higher revenue of RM363.2million, mainly due to an improved commission structure with the New York state authority for Resorts World New York City (“RWNYC”)’s gaming operations. The US and Bahamas operations also reported higher adjusted EBITDA mainly driven by lower operating costs incurred by the Bimini operations in the Bahamas as a result of its ongoing cost rationalisation initiatives.

In 3Q17, the Group’s overall adjusted EBITDA was impacted by foreign exchange translation loss on its USD denominated assets. Excluding the effects of foreign exchange, the Group’s overall adjusted EBITDA would have declined by 17% from the same period last year.

9M17 Results

In 9M17, the leisure and hospitality business in Malaysia recorded a marginally higher revenue of RM4,141.8 million mainly from overall higher volume of business following the opening of new attractions and facilities under GTP since December 2016. This has contributed significantly to higher revenues from the mass segment. Adjusted EBITDA was lower by 15% to RM1,207.3 million, mainly due to higher cost associated with the premium players business and the ramping up of new facilities under GTP.

In the UK, the Group recorded marginally lower revenue mainly due to lower volume of business from the non-premium players business amid a subdued consumer sentiment. There were also higher bad debts written off during the period.

In the US and Bahamas, the Group achieved higher revenue and adjusted EBITDA of RM1,129.1 million and RM193.8 million respectively, mainly from favourable foreign exchange movement and higher revenue contribution from RWNYC. Additionally, the Group registered lower operating losses on its Bimini operations which contributed to the overall increase in adjusted EBITDA.

On 7 July 2017, the Group announced an update on its investment in promissory notes to finance the Mashpee Wampanoag Tribe (“the Tribe”)’s development of an integrated gaming resort in Taunton, Massachusetts, USA. The total investment (including accrued interest) as at 30 September 2017 amounted to USD368.9 million (or equivalent to RM1.56 billion). Parties (i.e. the Tribe and the Plaintiffs) have to-date submitted the materials required by the U.S. Federal Government for its review of the Tribe’s rights to trust land. The U.S. Federal Government has not announced a date upon which they will issue a final decision. The development of the project is currently stalled pending further court developments and/or actions by relevant governmental authorities. The Group will continue working with the Tribe to review all options available and assess the recoverability on its investment as well as its impact to the Group’s consolidated earnings and net assets for this financial year.

Outlook

Global economic conditions are expected to further strengthen in the fourth quarter of 2017, driven by growth in consumption and investments in certain advanced economies and improvements in global trade. The Malaysian economy is expected to continue on its growth trajectory, primarily driven by stronger domestic and external demand.

The outlook for international tourism is expected to remain positive. Meanwhile, the regional gaming industry remains promising as evidenced by the continued improvements in performances recently reported by gaming operators in Macau and Singapore.

The Group remains optimistic on the growth potential of the leisure and hospitality industry in the medium to long term.

In Malaysia, the Group remains focused on the development of GITP at RWG as it prepares to roll out the much anticipated 20th Century Fox World Theme Park as well as the new indoor theme park next year. With the recent additions under GITP that complement the existing attractions at RWG, the Group will focus on optimising overall operational efficiencies and driving revenue growth.

In the UK, the Group is encouraged with its performance in the premium players business segment despite the challenging operating environment. The Group's strategy to reduce short term volatility in this segment continues to be successful in delivering sustainable performance. As for the non-premium players business, the Group will continue its efforts on strengthening its position and improving business efficiency in this segment. Visitation growth in Resorts World Birmingham has been encouraging and emphasis will continue to be placed on stabilising the operations and growing the business at the resort.

In the US, RWNYC maintained its steady business growth and remains the market leader in terms of gaming revenue in the Northeast US region, despite growing regional competition. The Group will continue intensifying its direct marketing efforts to drive visitations and frequency of play at the property. Additionally, RWNYC has embarked on a USD400 million expansion which will include various new attractions, such as a 400-room hotel, F&B outlets, retail stores and entertainment facilities. In the Bahamas, the Group will focus its marketing efforts on the leisure market to drive visitations and volume of business at the resort as well as continuing its cost rationalisation initiatives.
