TAN SRI (DR.) LIM GOH TONG

28 February 1918 – 23 October 2007

The story of Lim Goh Tong, founder of the Genting Group, is a unique, inspiring Malaysian success story. He arrived in Malaysia in 1937 as a penniless young man without any tertiary education and went on to create the Genting Group – one of Asia's leading conglomerates.

He was often named amongst the world's most successful Asian entrepreneurs. To many, he was the legend who at the age of 47, embarked on a vision of turning a remote mountain into today's highly successful Genting Highlands Resort – Malaysia's premier tourist destination.

His life story and values are an inspiration to all. He dared to dream dreams and had the courage and conviction to turn them into reality. He did not study beyond primary school, yet was fearless in turning life's challenges into opportunities. His distinct entrepreneurial style blended street savvy with well-timed risk-taking and relentless hands-on management. He had a huge appetite for work, vacation was not in his vocabulary. But above all, he was extremely humble, often addressing himself as a simple traditional Chinese businessman.

Lim was born in 1918 in Anxi in China's southern Fujian province. He was the fifth child and second son of a vegetable-seed trader. When his father died, 16-year-old Lim left school and took over the trading business, hawking his goods along country roads.

Determined to support his mother and siblings financially, at 19 he ventured to work in Malaya. Starting as a carpenter, he went on to trade in used equipment and machinery, investing profits earned into small-scale mining ventures and plantations. Eventually, he established his own construction company called 'Kien Huat' and through dedication and hard work became a successful Class A contractor, completing many major public infrastructure projects.

After Malaysia's independence, he was awarded the contract to build the country's first dam – the RM12 million Ayer Itam Dam in Penang. His other major projects included the RM5.2 million Sultan Yahya Petra Bridge in Kota Bharu, the RM20 million Hydroelectric Power Project in the Cameron Highlands and the RM54 million Kemubu Irrigation Scheme.

In 1964, while working in Cameron Highlands, he was inspired to build a highland resort for everyone to enjoy the cool mountain air. He identified Gunung Ulu Kali, a 1,800-metre high mountain plateau overlooking the country's capital, Kuala Lumpur, straddling the border between the states of Selangor and Pahang.

Many regarded this vision as an impossible dream, especially at a time when he could afford to retire comfortably. "The Genting project fitted my idea of an ideal business: Nobody else was interested in it," Lim wrote in his autobiography. Undeterred, he ploughed all his savings into turning his dream resort into reality. His humility, determination and proven track record as a contractor won the confidence of the authorities who approved his application to acquire and develop 6,000 hectares of land for the project.

On 8 August 1965, he began constructing the access road to the summit of Mount Ulu Kali through the dense tropical rainforest and rugged mountainous terrain. He devoted all his time, money and resources, even risking his life several times to complete this crucial access road within three years, instead of the original six-year target.

On 31 March 1969, when the foundation stone for the first hotel was laid, Malaysia's first Prime Minister Tunku Abdul Rahman Putra said the Government would consider a casino licence to further develop tourism in this remote area. On 28 April 1969, Malaysia granted its first and only casino licence to Genting.

On 8 May 1971, Genting Highlands Resort opened for business and became a great success story. Today, it is Malaysia's premier integrated resort and tourist destination attracting 19.6 million visitors in 2007. A vibrant 'City of Entertainment' – it offers six hotels (including the world's largest hotel) with ten thousand rooms, exhilarating fun rides, superb dining and shopping experiences, mega shows and international convention facilities.

From the humble beginnings of a 38-room hotel, Lim developed his Genting Group into a global empire spanning resorts, cruise ships, plantations, power generation and oil and gas exploration and production. The Genting Group is now known as one of Asia's leading and best-managed conglomerates. In the US, Lim bankrolled the Mashantucket Pequot Tribe in Connecticut to create one of the world's largest casino complexes, Foxwoods Resort Casino.

Lim retired on 31 December 2003 at age 85, handing over the reigns to his second son Kok Thay. After retiring, Lim spent most of his time at a villa he built in Gohtong Jaya, a township at the foothills of his beloved Genting Highlands.

A well-known philanthropist, he gave generously to the community through the Genting Group and Yayasan Lim, a family foundation established in 1978. He built the Chin Swee temple to honour the deity who inspired him to complete the access road to the peak of Mount Ulu Kali. For his contributions to the national economy and society, he was bestowed the title of "Tan Sri" by HM the Yang di-Pertuan Agong in 1979 and an Honorary Doctorate of Entrepreneurship from University of Tunku Abdul Rahman in 2005.

Tan Sri (Dr.) Lim married Puan Sri Lee Kim Hua in 1944. They were blessed with six children (three sons and three daughters) and 19 grandchildren.

He passed away peacefully on 23 October 2007 and was laid to rest on 29 October 2007, after a week-long wake attended by his beloved family, friends, associates and dignitaries from all over the world.

His honesty, humility and wisdom will be deeply missed. His remarkable legacy lives on.

CHAIRMAN'S STATEMENT

**“ We are committed to grow
as the world's leading
integrated resort operator”**

- Tan Sri Lim Kok Thay

On behalf of the Board of Directors, I am pleased to present to you the Annual Report and Audited Financial Statements of the Resorts World Group of Companies (“Resorts World”, “Group” or “We”) for the financial year ended 31 December 2007.

REVIEW OF RESULTS

The Group's revenue rose by 14% to a new record high of RM4.35 billion in 2007 (2006: RM3.81 billion), mainly attributed to higher volume of business as a result of higher visitor arrivals in the leisure and hospitality segment in conjunction with Visit Malaysia Year 2007.

Profit before tax was significantly higher at RM1.91 billion in 2007 (2006: RM1.14 billion). This was mainly due to the increase in revenue, one-off gain on disposal and dilution of equity investment in Star Cruises Limited (“Star Cruises”) of RM418.1 million, higher interest income of RM85.4 million and lower share of losses in Star Cruises as the Group no longer equity account the results of Star Cruises with effect from 31 July 2007.

CORPORATE SOCIAL RESPONSIBILITY

We have always been committed to our role as a good corporate citizen. In this year's annual report, we are reporting our corporate social responsibility ("CSR") initiatives more formally in the areas of Environment, Marketplace, Workplace and Community in line with the framework recommended by Bursa Malaysia Securities Berhad. Taken together with our statement on Corporate Governance, these provide an overview of how we aim to fulfil our responsibilities to our stakeholders and to promote the highest quality of management across our operations. At the same time they show how our business contributes to society through all our activities and clarify our commitment to promoting good business practices within our own operations and with our suppliers.

PROSPECTS

Given today's competitive business environment, we realise it is imperative that we strive to maintain our exclusive commitment to our customers. The Group also continuously reviews new investment opportunities in leisure, hospitality and integrated entertainment resort to enhance long-term shareholder value.

We did well in conjunction with Visit Malaysia Year 2007. In 2008, with improved facilities and enhanced services, we are well equipped to cater to the anticipated growing number of visitors to the Resort.

We are saddened by the demise of our beloved Founder and my father Tan Sri (Dr.) Lim Goh Tong, who passed away peacefully on 23 October 2007. Our Founder was a great man who through determination, integrity and hard work, established the Genting Group as one of Asia's leading and best managed multinationals. “我們承諾全力以赴，成為全球首屈一指的綜合名勝經營者”

本人謹代表董事部向您呈獻名勝世界集團（以下簡稱‘名勝世界’、‘本集團’或‘我們’）截至2007年12月31日的常年報告及已審核財政報告。

業績回顧

本集團在2007年的營業額增長14%，創下新高達四十三億五千萬令吉（2006年：三十八億一千萬令吉），這主要歸功於在2007大馬旅遊年，休閒與酒店業務隨着遊客到訪人數增加而創下更理想的業績。

2007年的稅前盈利顯著提高至十九億一千萬令吉（2006年：十一億四千萬令吉）。這主要歸功於營業額增加、脫售麗星郵輪有限公司（簡稱‘麗星郵輪’）股權及稀釋股權投資的四億一千八百萬令吉一次過賺利、高達八千五百四十萬令吉的利息收益，以及自2007年7月31日起，本集團不再分攤麗星郵輪的業績，而減少了來自麗星郵輪的虧損份額。

股息

本集團的政策是在派息的同时，保留部分資金作為未來投資與業務擴展之用，并讓三者之間維持合理的平衡。

本集團已于2007年10月22日支付了總值高達一億二千零三十萬令吉的中期股息，為每股面值10仙普通股取得2.88仙的中期股息（需扣除27%稅款）。董事部所建議的終期股息為每股3.6仙（需扣除26%稅款），將在來臨的第28屆股東大會提出，由股東批准。2007年分發的每股股息總額為6.48仙，比上一年的5.40仙增加了20%。

企業發展

這一年來，本集團積極地實行其資本管理與投資策略。另外，本公司也在2007年6月21日獲股東授權回購其10%的發行股份。

本公司從2007年5月15日開始回購股票。截至2008年5月15日，本公司已回購了一億二千九百一十萬股，總值五億四百一十萬令吉。

為了精簡投資，本集團於2007年7月30日，以二十六億五千萬港元（約十一億七千萬令吉）脫售十億一千萬麗星郵輪每股面值0.10美元的普通股，相等於14.02%股權。因此，不再視麗星郵輪為聯號公司。

在持續研討本集團世界性投資與策略定位，本集團於2007年12月28日提出不可轉讓獻議，以脫售雲頂國際公共有限公司（簡稱‘雲頂國際’）全部股權給公司股東。這項建議將會讓本集團股東有機會以低過市價直接參與雲頂國際的未來發展。這項計劃已在2008年4月30日完成，籌措約五億二千二百萬令吉。

業務發展

本集團在2007年取得卓越非凡的成績。雲頂高原勝地（以下簡稱‘勝地’）很榮幸地獲得世界旅游大獎（World Travel Awards）投選為《世界首要賭場名勝》以及《亞洲首要賭場名勝》。

CORPORATE SOCIAL RESPONSIBILITY

Our corporate social responsibility ("CSR") programme reflects our position as a global leader in the leisure and hospitality industry providing responsible world-class entertainment within a sustainable business environment. We aim to surpass industry standards in all aspects of management, operations and procedures in the areas of Environment, Marketplace, Workplace and Community. We also ensure that we fulfill our core responsibilities to all our stakeholders.

ENVIRONMENT

Right from the beginning, the Group has shown tremendous respect for the environment in the Resort. Despite building a resort complex of this magnitude, we are proud of our strong environmental record based on policies of minimal impact on the environment and environmentally sound policies.

The Group has an ongoing policy of environmental protection and conservation. From the outset, the development of the Resort was intentionally confined to just two areas to preserve the surrounding forest. The main development sits on a 33.6-hectare area on the hilltop and 105-hectare area at the mid-hill level.

Our projects at the Resort have been strategically designed to minimise the use and clearing of land for development. The construction methods used are eco-friendly such as the use of hand-dug caisson methods which do not require extensive clearing to create platforms for piling. Careful planning has also been adopted to minimise the impact on the natural environment of the Resort. We have used bridges and overhanging structures on steep sections of the roads to minimise cutting of slopes and felling of trees.

We have achieved marked reductions in infrastructure needs by concentrating our development. As a result, the major portion of our forest concession at the Resort is preserved and approximately 96% of the 4,297 hectares is still virgin forest. The Group maintains a stringent policy of "no logging" on our land-bank at the Resort.

Our environmental management systems are constantly being reviewed and adapted to improve the quality of the environment. For example, we use environmentally friendly waste disposal systems including composting and have converted from environmentally hazardous diesel to electrical water pumps for our water treatment system. This reduced our direct energy use from this source by 100% and converted to indirect energy use which can be monitored and reduced more effectively.

Within our hotels, facilities and staff quarters, we continually monitor air emissions to ensure compliance with the IAQ (Indoor Air Quality) guidelines.

Energy, water consumption and waste production are also monitored to ensure the growth rate is lower than the growth rate of our business. Last year we achieved a 3% reduction in total water use and a 40% reduction in waste, which is now around 18,000 tonnes per annum.

We have also introduced a number of initiatives to reduce our energy consumption. These include rescheduled operating hours for water catchment motors, laundry facilities and generator settings for our Sky Venture facility to avoid times of maximum electricity demand. We have installed energy saving light bulbs in all 10,000 guest rooms and other hotel facilities. Timers are used on fixed lighting and sensor lighting is installed at common kitchens and staff quarters to ensure that lights are switched off when the rooms are not in use. We have reduced blowdown frequency and the number of boilers in operation. We have also improved steam piping and steam trap leaks management to improve efficiency.

The Group has implemented the "Integrated Management System" comprising Environmental Management System, Quality Management System and Occupational Health & Safety Assessment Series (OHSAS) for the purpose of improving the quality of services with special focus on environment and safety of all stakeholders. Our Theme Park operations are certified to ISO9001:2000 standards.

The Group runs Environmental Impact Assessments before starting all major projects. These are carried out by independent consultants for all the Group projects in accordance with the Environmental Quality Act and the respective approvals were obtained from the relevant authorities.

MARKETPLACE

In an effort to instill CSR with all our business associates, our terms and conditions require contractors to contribute to SOCSO/Workers' Compensation Insurance, Employee Provident Funds and other contributions for the benefits of their employees.

Our standard supplier contracts require conformity to the Environmental Control Act 1974 to ensure no releases, emissions, discharges or disposal of radioactive, toxic or harmful substances, chemicals, pollutants, contaminants or other waste of any form on or under our sites.

Our standard and specific terms and conditions require all of our contractors and subcontractors to comply with our Occupational Safety and Health Act 1994 requirements. These ensure that their employees shall always comply with good safety practices and be properly attired with safety devices as required by law.

The Group assists suppliers to understand our policies with on-site demonstrations and visits, supplier purchasing charters and briefings for suppliers before contracts are conducted. We have a policy to promote local sourcing of products and services especially in preventative maintenance, renovations and refurbishments, repairs and support and consultancy for professional services.

In providing our services to our guests, we adopt the highest standards of product responsibility. Customer satisfaction surveys are conducted regularly. WORKPLACE

As at 31 December 2007, the Group has a total workforce of approximately 13,400 employees.

Staff development and training are central to our Human Resources ("HR") policies. In 2007, over 11,000 employees underwent training beyond induction. A key focus was on enhancing customer service. Our front liners were trained to deliver service par excellence to our guests, while our supervisors and managers underwent training in managing services. Safety and ISO awareness were also emphasised to enhance our commitment to professionalism.

Benefits extended to all employees include health and accident insurance, disability insurance and maternity/paternity leave. We also offer staff quarters and meals, sports facilities, counselling and ongoing learning and study leave options on a company-wide basis.

Development programmes on core competencies were also organized for our executives. The 19th Senior Managers' Conference was held at The Datai, Langkawi and the theme "Growing Profitability in a Highly Competitive Environment" was adopted. The 14th Resorts World Bhd Group HR Conference was held at Awana Porto Malai, Langkawi, to deliberate and adopt the 2007 - 2008 HR initiatives towards "Service Excellence - Our Competitive Advantage". Team-building sessions were held in departments to promote *esprit de corps* and bonding among the team members.

To ensure that the returns on training investments are realized, the Kirkpatrick's *evaluation model* was adopted where trainees were evaluated based on observations of skills transfer and application on the job. Employees moving up the career ladder were assessed to ensure they possess the required competencies and qualities for their next job level. The process is linked to our performance management system: *rewards for performance*.

In August 2007, we inaugurated the Hotel Management Trainee programme to provide career and growth opportunities for high potential hotel employees. This initiative is also part of our efforts to retain talent. The programme fast tracks those hotel employees who hold at least diploma qualifications and who have been identified as potential Executives. The trainees undergo a rigorous 12-month training programme with exposure to various hotel functions. Upon completion, they are evaluated to measure their readiness for Group positions. A total of 13 candidates participated in the programme last year. As part of our branding initiative, these opportunities were also extended to external candidates from selected colleges and universities.

As an ongoing exercise to inject quality fresh graduates into our talent pool, a total of 29 management trainees were engaged to undergo a structured development programme for succession into managerial positions in the future.

The HR Department will continue to focus on people development in our continuous effort to raise our service and skill levels to ensure a steady supply of talent for now and the future.

Some of our employees belong to our staff trade union ("RWEU") and our executive employees are represented by the Executive Consultative Committee ("ECC"). Regular monthly meetings are held with RWEU and ECC over any organizational changes. Wherever organizational changes impact a particular department, briefings are held directly with employees concerned. Recent talks held have covered new appointments to key positions and new departmental reporting lines.

Health & Safety is given the highest priority within our operations. Our management systems conform to MS1722:2003 (Malaysian Standards) and cover fire risks, contagious diseases, environmental air quality, workplace safety and emergency evacuation readiness.

We have achieved low accident rates mainly involving minor incidents such as minor cuts from cutlery.

Directors do not participate in decisions regarding their own remuneration packages.

The Remuneration Committee met twice during the financial year.

The Company's Annual General Meeting remains the principal forum for dialogue with shareholders. Shareholders are encouraged to participate in the proceedings and to ask questions about the resolutions being proposed and the operations of the Group.

The Group maintains a corporate website at www.resortsworld.com which provides information relating to annual reports, press releases, quarterly results, announcements and corporate developments.

The Board aims to ensure that the quarterly reports, annual financial statements as well as the annual review of operations in the annual report are presented in a manner which provides a balanced and understandable assessment of the Company's performance and prospect.

Entities in Malaysia and which give a true and fair view of the state of affairs of the Group and of the Company at the end of the financial year and of the results and the cash flows of the Group and of the Company for the financial year ended on that date.

A statement by the Board of its responsibilities for preparing the financial statements is set out on page 81 of this Annual Report.

(ii) Internal Control

The Board is responsible for the Group's system of internal control and risk management and for reviewing its adequacy and integrity. To assist the Board in maintaining a sound system of internal control for the purposes of safeguarding shareholders' investment and the Group's assets, the Group has in place, an adequately resourced internal audit department. The activities of this department which reports regularly to the Audit Committee provides the Board with much of the assurance it requires regarding the adequacy and integrity of the system of internal control. STATEMENT ON INTERNAL CONTROL

as at 31st December, 2007

The Board's Responsibilities

In relation to internal control, pursuant to the requirements under the Malaysian Code on Corporate Governance for companies listed on the Bursa Malaysia Securities Berhad ("Bursa Securities"), the Board of Directors ("the Board") acknowledges their responsibility under the Bursa Securities Listing Requirements to: -

- Identify principal risks and ensure implementation of appropriate control measures to manage the risks.
- Review the adequacy and integrity of the internal control system, management information systems and systems for compliance with applicable laws, regulations, rules, directives and guidelines.

It should be noted that an internal control system is designed to manage risks rather than eliminate them and can provide only reasonable but not absolute assurance against any material misstatement or loss.

The Board confirms that there is an ongoing risk management process established to identify, evaluate, and manage significant risks to effectively mitigate the risks that may impede the achievement of the RWB Group of companies' ("the RWB Group") business and corporate objectives. The Board reviews the process on a regular basis to ensure proper management of risks and measures are taken to mitigate any weaknesses in the control environment.

The Risk Management Process

The RWB Group has implemented the Control Self-Assessment ("CSA") to formalise the risk management process. With the CSA, departments/business areas of the RWB Group are required to identify and evaluate controls within key functions/activities of their business processes.

The implementation of the risk management process for the RWB Group is the responsibility of the Executive Committee comprising the Executive Directors, the Business/Operations Heads of the RWB Group's operating units with oversight and assistance provided by relevant senior management staff of the holding company, Genting Berhad. The Risk and Business Continuity Management Committee ("RBCMC"), chaired by the Head of Finance ("SVP Finance"), further oversees the effectiveness of the risk management program.

The key aspects of the risk management process are:-

- Business/Operations Heads are required to update their risk profiles on a half yearly basis and in this regard issue a Letter of Assurance at the end of each second half yearly review to confirm that they have reviewed the risk profiles, risk reports and related business processes and are also monitoring the implementation of action plans.
- Reviews of the risk profiles, the control procedures and status of the action plans are carried out on a regular basis by the Head-Risk Management of the holding company and the Business/Operation Heads.
- Management of the respective companies are provided with reports to enable them to review, discuss and monitor the risk profiles and implementation of action plans.
- On a quarterly basis, a risk report detailing significant risk issues and control measures implemented or to be implemented to deal with the risks will be reviewed by the RBCMC prior to being tabled to the RWB Group Executive Committee.

- On a quarterly basis, a risk management report summarising the significant risks and/or the status of action plans are presented to the Audit Committee for review, deliberation and recommendation for endorsement/approval by the Board.

The Internal Control Processes

The other key aspects of the internal control process are:-

- The Board and the Audit Committee meet every quarter to discuss matters raised by Management of the RWB Group ("Management") on business and operational matters including potential risks and control issues.
- The Board has delegated their responsibilities to various committees established by the Board and Management to implement and monitor the Board's policies on controls.
- Delegation of authority including authorisation limits at various levels of Management and those requiring the Board's approval are documented and designed to ensure accountability and responsibility.
- Internal procedures and policies are clearly documented in manuals and reviewed and revised periodically to meet changing business, operational and statutory reporting needs.
- Performance and cash flow reports are provided to Management and the RWB Group Executive Committee to review and monitor the financial performance and cash flow position.
- Business/operating units present their annual budget which includes the financial and operating targets, capital expenditure proposals and performance indicators for approval by the RWB Group Executive Committee and the Board.
- A half yearly review of the annual budget is undertaken by Management to identify and where appropriate, to address significant variances from the budget.

Some weaknesses in internal control were identified for the year under review but these are not material weaknesses and hence have not been included in this statement, as these weaknesses have not materially impacted the business or operations of the RWB Group.

Business continuity management is regarded to be an integral part of the RWB Group's risk management process. In this regard, the RWB Group has commenced implementation of business continuity plans to minimise business disruptions in the event of potential failure of critical IT systems and operational processes. The documentation of the business continuity plan for the RWB Group's core business operations has been completed.

The Internal Audit Function

The Internal Audit function is outsourced to the Group Internal Audit Division ("Group Internal Audit") of the holding company, which is responsible for undertaking regular and systematic review of the internal controls to provide the RWB Group Audit Committee and the Board with sufficient assurance that the systems of internal control are effective in addressing the risks identified.

On a quarterly basis, Group Internal Audit submits audit reports and plan status for review and approval by the RWB Group Audit Committee. Included in the reports are recommended corrective measures on risks identified, if any, for implementation by Management.

OTHER STATUTORY INFORMATION

Before the income statements and balance sheets of the Group and of the Company were made out, the Directors took reasonable steps:

- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, and satisfied themselves that all known bad debts had been written off and adequate allowance had been made for doubtful debts; and
- (ii) to ensure that any current assets, other than debts, which were unlikely to realise in the ordinary course of business their values as shown in the accounting records, were written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- (i) which would render the amount written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent;
- (ii) which would render the values attributed to the current assets in the financial statements of the Group and of the Company misleading;
- (iii) which have arisen which render adherence to the existing methods of valuation of assets or liabilities in the financial statements of the Group and of the Company misleading or inappropriate; and
- (iv) not otherwise dealt with in this report or in the financial statements of the Group and of the Company, that would render any amount stated in the respective financial statements misleading.

At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

No contingent or other liability of the Group or of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group or of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors:

- (i) the results of the operations of the Group and of the Company for the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature except for those disclosed in the financial statements; and
- (ii) no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2007

Amounts in RM million unless otherwise stated

1. PRINCIPAL ACTIVITIES

The Company is involved in a tourist resort business at Genting Highlands and its principal activities cover leisure and hospitality services, which comprise gaming, hotel, entertainment and amusement.

The principal activities of the subsidiaries include property development and management, leisure and hospitality services, investments, timeshare ownership scheme, tours and travel related services.

During the financial year, the Group ceased to have significant influence over an associate involved in the cruise and cruise related operation (See Note 20 to the financial statements).

Details of the principal activities of the subsidiaries are set out in Note 43 to the financial statements.

Apart from the above, there have been no other significant changes in the nature of the activities of the Group and of the Company during the financial year.

2. BASIS OF PREPARATION

The financial statements have been prepared in accordance with and comply with the Financial Reporting Standards, Malaysian Accounting Standards Board ("MASB") Approved Accounting Standards for Entities Other than Private Entities in Malaysia and the provisions of the Companies Act, 1965. The bases of measurement applied to assets and liabilities are cost, amortised cost, lower of cost and net realisable value, revalued amount and fair value.

The preparation of financial statements in conformity with the Financial Reporting Standards and the provisions of the Companies Act, 1965 requires the Directors to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. It also requires Directors to exercise their judgments in the process of applying the Company's accounting policies. Although these judgments and estimates are based on the Directors' best knowledge of current events and actions, actual results could differ from those judgments and estimates.

JUDGMENTS AND ESTIMATIONS

In the process of applying the Group's accounting policies, management makes judgments that can significantly affect the amount recognised in the financial statements. These judgments include:

i) Investment in Star Cruises Limited ("SCL")

The Group complies with Financial Reporting Standard 128: Investments in Associate ("FRS 128") on the definition of an associate. An associate is a company in which the Group exercises significant influence. Following FRS 128, the Group is presumed to have significant influence when it holds, directly or indirectly, 20 per cent or more of the voting power of an entity. Conversely, if the Group holds, directly or indirectly, less than 20 per cent of the voting power of that entity, it is presumed that the investor does not have significant influence and therefore not an associate.

The management assessed and concluded that there is no evidence of the existence of significant influence by the Group over SCL as:

- a) There is no representation on the board of directors or equivalent governing body of SCL;
- b) There is no participation in policy-making processes, including participation in decisions about dividends or other distributions;

JUDGMENTS AND ESTIMATIONS (cont'd)

i) Investment in Star Cruises Limited ("SCL") (cont'd)

- c) There are no material transactions, interchange of managerial personnel or provision of essential technical information between the Group and SCL.

By virtue of the above, SCL will not be considered an associated company of the Group and the Group will not equity account the results of SCL when the Group's shareholding falls below 20%. As at 31 December 2007, the Group's shareholding in SCL was approximately 19.3%.

ii) Impairment of Investments in Subsidiaries

The Company follows the guidance of Financial Reporting Standard 136: Impairment of Assets ("FRS 136") to determine whether the Company's investment in subsidiary is impaired. In making this judgment, the Company evaluates, among other factors, the fair value and value in use of its subsidiaries. The fair value is the amount obtainable from the sale of an asset or cash generating unit of the subsidiary in an arms length transaction less the cost of disposal. The determination of fair value is based on the best information available including but not limited to the quoted market prices when available and independent appraisals, as appropriate. The calculation of value in use takes into consideration of estimated future cash flows of the subsidiary, expectations about possible variations in the amount or timing of these future cash flows, and time value of money.

The investment in subsidiary will be impaired if the carrying amount exceeds its recoverable amount measures at the higher of its fair value less cost to sell and value in use. An impairment loss is charged to the income statement.

During the financial year, the Company recorded an impairment loss of RM936.0 million in the Income Statement.

Significant estimates used in the preparation of financial statements that may cause a material adjustment to the carrying amount of assets and liabilities are:

i) Provision for taxation

The Group is subject to income taxes in numerous jurisdictions in which the Group operates. Significant judgment is required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for tax based on estimates of assessment of the tax liability due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

3. SIGNIFICANT ACCOUNTING POLICIES

Adoption of new Financial Reporting Standards

Accounting policies adopted by the Group and the Company have been applied consistently in dealing with all material items in relation to the financial statements, unless otherwise stated. The following new and revised Financial Reporting Standards ("FRS") that are relevant to the Group have been adopted during the financial year:

FRS 117	Leases
FRS 119	Employee Benefits
FRS 124	Related Party Disclosures

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Adoption of new Financial Reporting Standards (cont'd)

The adoption of the above FRSs did not result in substantial changes to the Group's accounting policies other than the effects of the following FRS:

FRS 117 Leases

Standards, amendments to published standards and interpretations to existing standards that are not yet effective and have not been early adopted

The new standards, amendments to published standards and interpretations that are mandatory for the Group and the Company's financial periods beginning on or after 1 January 2008, which the Group and the Company have not early adopted, are as follows:

FRS 107 ₂₀₀₇	Cash Flow Statements
FRS 112 ₂₀₀₇	Income Taxes
FRS 118 ₂₀₀₇	Revenue
FRS 134 ₂₀₀₇	Interim Financial Reporting
FRS 137 ₂₀₀₇	Provisions, Contingent Liabilities and Contingent Assets

Amendment to FRS 121₂₀₀₇ The Effects of Changes in Foreign Exchange Rates - Net Investment in Foreign Operation.

IC Interpretation 8 Scope of FRS 2.

The above FRSs and IC interpretations are not expected to have any significant financial impact for the Group and the Company for the financial year ending 31 December 2008, except for FRS 112₂₀₀₇ which possible impact is disclosed in Note 35.

Standards, amendments to published standards and interpretations that are not yet effective and not relevant for the Group and the Company's operations:

FRS 111 ₂₀₀₇	Construction Contracts
FRS 120 ₂₀₀₇	Accounting for Government Grants and Disclosure of Government Assistance
IC Interpretation 1	Changes in Existing Decommissioning, Restoration and Similar Liabilities.
IC Interpretation 2	Members' Shares in Co-operative Entities and Similar Instruments.
IC Interpretation 5	Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds.
IC Interpretation 6	Liabilities arising from Participating in a Specific Market - Waste Electrical and Electronic Equipment.
IC Interpretation 7	Applying the Restatement Approach under FRS 129 ₂₀₀₄ Financial Reporting in Hyperinflationary Economies.

The effective date for FRS 139 Financial Instruments: Recognition and Measurement has yet to be determined by the MASB. Entities are exempted from disclosing the impact of FRS 139 prior to its effective date.

The principal effect of the changes in accounting policies resulting from the adoption of FRS 117 Leases by the Group and the Company is as follows:

Adoption of new Financial Reporting Standards (cont'd)

i) FRS 117 Leases

Prior to the adoption of the revised FRS 117, leasehold land was classified as property, plant and equipment and was stated at cost or valuation less accumulated depreciation and impairment losses as applicable. Under the revised FRS 117, leasehold land is categorised as an operating lease unless title passes to the lessee at the end of the lease term. With the adoption of the revised FRS 117, the unamortised carrying amounts of leasehold land are now classified as leasehold land use rights (referred to as prepaid lease payment in FRS 117, Leases) and amortised over the period of its remaining lease term, as allowed by the transitional provisions of the revised FRS 117. The reclassification of leasehold land as leasehold land use rights has been accounted for retrospectively and the comparatives in the balance sheet and cash flow statement have been restated.

The financial impact to the Group and the Company arising from the adoption of this accounting policy is as follows:

	Current financial year ended 31 December 2007	
	Group	Company
Increase in Leasehold Land Use Rights	95.5	0.4
Decrease in Property, Plant and Equipment	(95.5)	(0.4)

The effects on the comparatives to the Group and the Company on adoption of FRS 117 are as follows:

As at 31 December 2006	As previously reported	Effect of adoption of FRS 117	As restated
Group			
Property, plant and equipment	3,615.7	(96.6)	3,519.1
Leasehold land use rights	-	96.6	96.6
Company			
Property, plant and equipment	1,979.4	(0.4)	1,979.0
Leasehold land use rights	-	0.4	0.4

The following are the significant accounting policies adopted by the Group:

Basis of Consolidation

Investments in subsidiaries are eliminated on consolidation while investments in jointly controlled entities and associates are accounted for by the equity method of accounting.

a) Subsidiaries

The consolidated financial statements include the audited financial statements of the Company and all its subsidiaries made up to the end of the financial year. Subsidiaries are those companies in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2007

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Basis of Consolidation (cont'd)

a) Subsidiaries (cont'd)

Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date that control ceases. Subsidiaries are consolidated using the purchase method of accounting whereby the results of subsidiaries acquired or disposed of during the financial year are included from the date of acquisition up to the date when the control ceases. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiary acquired at the date of acquisition is reflected as goodwill. See the accounting policy note on the treatment of goodwill.

All material intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also been eliminated unless cost cannot be recovered. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

The gain or loss on disposal of a subsidiary is the difference between net disposal proceeds and the Group's share of its net assets together with any balance of goodwill on acquisition and exchange differences which were not previously recognised in the consolidated income statement.

Minority interests is measured at the minorities' share of the fair value of the identifiable assets and liabilities of the acquiree as at the date of acquisition and the minorities' share of movements in the acquiree's net assets since that date. Separate disclosure is made of minority interests.

b) Jointly controlled entities

Jointly controlled entities are corporations, partnerships or other entities over which there is contractually agreed sharing of control by the Group with one or more parties.

The Group's interests in jointly controlled entities are accounted for in the consolidated financial statements by the equity method of accounting. Equity accounting involves recognising the Group's share of the post acquisition results of jointly controlled entities in the income statement and its share of post acquisition movements within reserves in reserves. The cumulative post acquisition movements are adjusted against the cost of the investment and includes goodwill on acquisition less impairment losses, where applicable. See accounting policy note on impairment of assets.

The Group recognises the portion of gains or losses on the sale of assets by the Group to the joint venture that is attributable to the other parties in the ventures. The Group does not recognise its share of profits or losses from the joint venture until it resells the assets to an independent party. However, if a loss on the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss, the loss is recognised immediately.

Where necessary, in applying the equity method, adjustments have been made to the financial statements of jointly controlled entities to ensure consistency of accounting policies with those of the Group.

Basis of Consolidation (cont'd)

c) Associates

Associates are companies in which the Group exercises significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associates but not control over those policies.

Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. Equity accounting involves recognising in the income statement the Group's share of the associates' results for the financial year. The Group's interest in associates is stated at cost net of goodwill written off, for acquisitions prior to 1 January 2004, plus adjustments to reflect changes in the Group's share of the net assets of the associates. Equity accounting is discontinued when the carrying amount of the investment in an associate reaches zero, unless the Group has incurred obligations or made payment on behalf of the associate.

The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the assets transferred.

Where necessary, in applying the equity method, adjustments have been made to the financial statements of associates to ensure consistency of accounting policies with those of the Group.

When the Group ceases to have significant influence over an associate, the Group discontinues the use of equity method from the date that it ceases to have significant influence over an associate and shall account for the investment as available-for-sale financial asset in accordance with FRS 139, *Financial Instruments: Recognition and Measurement*, from that date.

See accounting policy note on available-for-sale financial asset.

Property, Plant and Equipment

Property, plant and equipment are tangible items that:

- i) are held for use in the production or supply of goods or services, or for administrative purposes; and
- ii) are expected to be used during more than one period.

Property, plant and equipment are stated at cost less accumulated depreciation, amortisation and impairment loss where applicable.

Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period that they are incurred.

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Property, Plant and Equipment (cont'd)

The depreciable amount of an item of property, plant and equipment is determined as the difference between the cost less its residual value. The residual value is the estimated amount that the Group expects to obtain from disposal of the asset, after deducting the estimated cost to disposal, if the asset was already of the age and in the condition expected at the end of its useful life.

Freehold land and property, plant and equipment which are under construction are not depreciated. Depreciation on assets under construction commences when the assets are ready for their intended use. The Group depreciates other assets based on their consumption pattern and is applied separately to each significant component.

Other property, plant and equipment are depreciated over their estimated useful lives using the straight-line method. The annual rates of depreciation used for the major classes of property, plant and equipment are as follows:

Buildings and improvements	2% – 50%
Plant, equipment and vehicles	5% – 50%

The assets residual values and useful life are reviewed annually and revised if appropriate.

Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Gains and losses on disposals are determined by comparing net disposal proceeds with the carrying amount and are included in the income statement. On disposal of revalued assets, amounts in the revaluation reserve relating to those assets are transferred to retained earnings.

Investment Properties

Investment properties consist of investments in land and buildings that are held for long-term rental yield and/or for capital appreciation and are not occupied by the Group. It is initially measured at cost, including direct transaction costs.

The Group adopted the cost model to measure all its investment properties. Under the cost model, investment property is measured at depreciated cost less any accumulated impairment losses. The annual rate of depreciation used for investment properties is 2%.

Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Gains and losses on disposal are determined by comparing net disposal proceeds with the carrying amount and are included in the income statement.

Leasehold Land Use Rights

Leasehold land that normally has a finite economic life and title is not expected to pass to the lessee by the end of the lease term is treated as an operating lease. The payment made on entering into or acquiring a leasehold land is accounted as leasehold land use rights (referred to as prepaid lease payment in FRS 117, Leases) that are amortised over the lease term in accordance with the pattern of benefits provided.

The Group had previously classified the leasehold land use rights within its property, plant and equipment. On adoption of FRS 117, Leases, the Group treats such a lease as an operating lease, with the unamortised carrying amount classified as leasehold land use rights.

Leasehold Land Use Rights (cont'd)

Leasehold land use rights with lease period of 99 years or less are amortised equally over their respective periods of lease.

Property Development Activities

a) Land held for property development

Land held for property development consists of land on which no significant development work has been undertaken or where development activities are not expected to be completed within the normal operating cycle. Such land is classified as non-current asset and is stated at cost less accumulated impairment losses, if any.

Cost comprises cost of land and all related costs incurred on activities necessary to prepare the land for its intended use. Where the Group had previously recorded the land at revalued amounts, it continues to retain this amount as its surrogate cost as allowed by FRS 201₂₀₀₄ (previously MASB 32), Property Development Activities. Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Land held for development is transferred to property development costs and included under current assets when development activities have commenced and where the development activities can be completed within the normal operating cycle.

b) Property development costs

Property development costs comprise costs associated with the acquisition of land and all costs directly attributable to development activities or costs that can be allocated on a reasonable basis to these activities.

When the outcome of the development activity can be estimated reliably, property development revenue and expenses are recognised by using the percentage of completion method in respect of sales where agreements have been finalised. Under this method, profits are recognised as the property development activity progresses. The stage of completion is determined based on proportion of property development costs incurred for work performed up to the balance sheet date over the estimated total property development cost to completion.

When the outcome of a development activity cannot be reliably estimated, property development revenue is recognised only to the extent of property development costs incurred that is probable of recovery, and property development costs on the development units sold are recognised when incurred. Foreseeable losses, if any, arising when it is probable that total property development costs (including expected defect liability expenditure) will exceed total property development revenue, are recognised immediately in the income statement.

Property development costs not recognised as an expense is recognised as an asset and is stated at the lower of cost and net realisable value. Upon completion of development, the unsold completed development properties are transferred to inventories.

Where revenue recognised in the income statement exceed billings to purchasers, the balance is shown as accrued billings under trade and other receivables (within current assets). Where billings to purchasers exceed revenue recognised in the income statement, the balance is shown as progress billings under trade and other payables (within current liabilities).

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Available-For-Sale Financial Asset

Pursuant to paragraphs 18 and 19 of FRS 128, *Investments in Associates*, in the event the Group ceased to have significant influence over its associates, the Group shall discontinue the use of equity method from the date that it ceases to have significant influence over the associate and shall account for the investment in accordance with FRS 139, *Financial Instruments: Recognition and Measurement*, from that date.

The carrying amount of the investment at the date of recognition is regarded as its cost on initial measurement as an available-for-sale financial asset ("AFS"). After the initial measurement, the Group measures the AFS at its fair values based on quoted prices in an active market.

Any gain or loss arising from a change in the fair value of the AFS is recognised directly in equity as Fair Value Reserve, except for impairment losses and foreign exchange gains and losses, if any, until the AFS is derecognised, at which time the cumulative gain or loss previously recognised in equity shall be recognised in income statement.

When a decline in the fair value of the AFS has been recognised directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity is removed from Fair Value Reserve and recognised in the income statement even though the AFS has not been derecognised. The amount of cumulative loss is measured as the difference between the carrying amount and current fair value, less any impairment loss on that AFS previously recognised in the income statement including any related foreign exchange component. Impairment losses recognised in the income statement on such amount are not subsequently reversed through income statement but in equity.

Investments

Long term investments, both quoted and unquoted, include investments in subsidiaries, jointly controlled entities, associates and other non-current investments.

Investments in other long term investments are stated at cost less impairment losses. An allowance for diminution in value is made where, in the opinion of the Directors, there is a decline other than temporary in the value of such investments. Such a decline is recognised as an expense in the period in which it is identified.

Short term quoted investments are stated at the lower of cost and market value, determined on a portfolio basis by comparing aggregate cost against aggregate market value. Market value is calculated by reference to quoted selling prices at the close of business on the balance sheet date. Money market instruments are stated at the lower of cost and net realisable value.

On disposal of an investment, the difference between net disposal proceeds and its carrying amount is charged/credited to the income statement.

Intangible Assets

a) Goodwill

Goodwill represents the excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiaries/jointly controlled entities/associates at the date of acquisition. Goodwill on acquisition of subsidiaries on or after 1

Intangible Assets (cont'd)

a) Goodwill (cont'd)

January 2004 is recognised as an intangible asset and disclosed separately on the consolidated balance sheet at cost less any impairment losses. Goodwill, less any impairment losses, on acquisition of associates occurring on or after 1 January 2004 is included in investments in associates and is tested for impairment as part of the overall balance. Separately recognised goodwill is tested annually for impairment and is stated at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash generating units for the purpose of annual impairment testing. The allocation is made to those cash generating units or groups of cash generating units that are expected to benefit from the business combination in which the goodwill arose.

Impairment of Assets

The carrying values of assets, other than inventories, assets arising from construction contracts, deferred tax assets and financial assets (excluding investments in subsidiaries, jointly controlled entity and associates), are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such indication exists, an impairment review is performed to assess whether the carrying amount of the asset is fully recoverable.

Irrespective of whether there is any indication of impairment, the Group also:

- a) tests intangible assets with indefinite useful life or intangible assets not yet available for use, if any, for impairment annually by comparing its carrying amount with its recoverable amount.
- b) tests goodwill acquired in a business combination, if any, for impairment annually.

Impairment loss is recognised when the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use, which is measured by reference to discounted future cash flows. Recoverable amounts are estimated for individual assets, or if it is not possible, for the cash generating unit.

An impairment loss is charged to the income statement, unless the asset is carried at revalued amount, in which case the impairment loss is used to reduce the revaluation surplus.

Assets other than goodwill that have suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes, where relevant, appropriate proportions of overheads and is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less costs to completion and selling expenses.

The cost of unsold properties comprises cost associated with the acquisition of land, direct costs and an appropriate proportion of allocated costs attributable to property development activities.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2007

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Receivables

Receivables are carried at estimated realisable value. In estimating realisable value, an allowance is made for doubtful receivables based on a review of all outstanding amounts at the financial year end. Bad debts are written off to the income statement during the financial year in which they are identified.

Cash and Cash Equivalents

Cash and cash equivalents include cash and bank balances, deposits and other short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Money market instruments are included within the short term investments in current assets in the balance sheet.

Share Capital

Ordinary shares are classified as equity in the balance sheet. Costs directly attributable to the issuance of new equity shares are taken to equity as a deduction from the proceeds.

Treasury Shares

Where the Company or its subsidiaries purchases the Company's equity share capital, the consideration paid, including any directly attributable incremental external costs, net of tax, is deducted from total shareholders' equity as treasury shares until they are cancelled, reissued or disposed of.

Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental external costs and the related tax effects, is included in shareholders' equity.

Where the share retirement method is applied, the nominal value of the shares repurchased is cancelled by a debit to the share capital account. An amount equivalent to the nominal value of the shares repurchased is transferred to a capital redemption reserve.

The consideration, including any acquisition cost and premium or discount arising from the shares repurchased, is adjusted directly to the share premium account or any other suitable reserve. In the circumstance where there is no or insufficient share premium, the consideration, or its balance thereof, is adjusted to any other suitable reserve.

The shares cancelled and the adjustments made to share premium or reserves would be shown as a movement in the share capital account and the share premium or reserve account respectively.

Borrowings

Borrowings are recognised based on proceeds received. Costs incurred on borrowings to finance qualifying assets are capitalised until the assets are ready for their intended use after which such expenses are charged to the income statement. All other borrowing costs are charged to the income statement.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Contingent Liabilities and Contingent Assets

The Group does not recognise a contingent liability but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. When a change in the probability of an outflow of economic resources occurs so that the outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group. The Group does not recognise contingent assets but discloses its existence where inflow of economic benefits are probable, but not virtually certain. When inflow of economic resources is virtually certain, the asset is recognised.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate can be made of the amount of the obligation.

Income Taxes

a) Current taxation

Current taxation is determined according to the tax laws of each jurisdiction in which the Group operates and includes all taxes based upon the taxable income and is measured using the tax rates which are applicable at the balance sheet date.

b) Deferred taxation

Deferred tax liabilities and/or assets are recognised, using liability method, on temporary differences between the carrying amounts of assets and liabilities in the financial statements and their related tax bases. However, deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilised. Deferred tax liability in respect of asset revaluations is also recognised. Deferred tax liabilities and assets are measured at the tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax is recognised on temporary differences arising on investments in subsidiaries, jointly controlled entity and associates except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Employee Benefits

a) Short term employee benefits

Short term employee benefits include wages, salaries, bonus, social security contributions and paid annual leave. These benefits are accrued when incurred and are measured on an undiscounted basis.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2007

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Employee Benefits (cont'd)

b) Post employment benefits

Post employment benefits include defined contribution plans under which the Group pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. These benefits are accrued when incurred and are measured on an undiscounted basis.

c) Long term employee benefits

Long term employee benefits include retirement gratuities payable under a retirement gratuity scheme which was established in 1991 by the Board of Directors for Executives and Executive Directors of the Company and certain subsidiaries. The level of retirement gratuities payable is determined by the Board of Directors in relation to the past services rendered and it does not take into account the employee's service to be rendered in later years up to retirement. The gratuity, which is calculated based either on length of service and basic salary as at the reporting date or on the basis of emoluments earned in the immediate past three years, is a vested benefit when the employee reaches retirement age.

The present value of the retirement gratuities is determined by discounting the amount payable by reference to market yields at the balance sheet date on high quality corporate bonds which have terms to maturity approximating the terms of the related liability. Employee turnover is also factored in arriving at the level of the retirement gratuities payable. The differences arising from the application of such discounting as well as any past service costs and the effects of any curtailments or settlements, if any, are recognised immediately in the income statement.

Such retirement gratuities payable are classified as current liabilities where it is probable that a payment will be made within the next twelve months and also provided that the amount has been approved for payment by the Board of Directors.

d) Share-based compensation

The Company operates an equity-settled, share-based compensation plan, where share options are issued to the eligible executives and executive directors.

The fair value of employee services rendered in exchange for the grant of the share options is recognised as an expense over the vesting period. The total amount to be expensed in the income statement over the vesting period is determined by reference to the fair value of each share option granted at the grant date and the number of share options vested by vesting date, with a corresponding increase in equity (option reserve). At each balance sheet date, the respective companies will revise its estimates of the number of share options that are expected to become exercisable. The option reserves in respect of options which have been lapsed are transferred to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to share capital and share premium when the options are exercised.

Employee Benefits (cont'd)

d) Share-based compensation (cont'd)

The fair value of the options was determined using "Trinomial" model based on the closing market price at Offer Date, the exercise price, expected volatility based on its historical volatility, option life and a risk free interest rate of 3.40% to 3.70% based on the yield on Malaysian Government Securities maturing between 5 to 10 years. The fair value of options granted to employees has been treated as additional paid in capital to be recognised as an expense over the option period. The unamortised amount is included as a separate component of reserves.

Revenue Recognition

Revenues are recognised upon delivery of products or performance of services, net of sales tax and discounts, and after eliminating revenue within the Group.

Casino revenue represents net house takings. The casino license in Malaysia is renewable every three months.

Sales of short term investments are accounted net of the cost of the respective investments when the contracts are executed.

Dividend income is recognised when the right to receive payment is established.

Dividends

Dividends on ordinary shares are accounted for in shareholders' equity as an appropriation of retained earnings and accrued as a liability in the financial year in which the obligation to pay is established.

Foreign Currency Translation

a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the balance sheet date, non-monetary items are translated at balance sheet date using historical rates or rates prevailing when the fair value of the assets are determined. Monetary items are translated at the closing rate. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities at closing rate are recognised in the income statement. However, the exchange differences arising on monetary items that form part of the net investment in the foreign operations are recognised directly in equity in the consolidated financial statements until the disposal of the foreign operations in which case they are recognised as gain or loss in the consolidated income statement.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2007

3. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Foreign Currency Translation (cont'd)

c) Group companies

On consolidation, the results and financial position of all the Group's entities which have a functional currency different from that of the Group's presentation currency are translated into the Group's presentation currency as follows:

- i) assets and liabilities, including goodwill and fair value adjustments arising from business combinations, for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- iii) all resulting exchange differences are recognised as a separate component of equity.

Financial Instruments

A financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

a) Financial instruments recognised on the balance sheet

The recognition method adopted for financial instruments that are recognised on the balance sheet are disclosed separately in the individual policy statements associated with the relevant financial instrument.

The financial assets and liabilities of the Group are primarily denominated in Ringgit Malaysia. Financial assets and liabilities that are denominated in other currencies, where material, have been disclosed in the Notes to the financial statements.

b) Financial instruments not recognised on the balance sheet

The Group, in managing its interest and currency exposures, enters into foreign currency forward contracts, interest rate swap and currency swap agreements. These instruments are not recognised in the financial statements on inception.

As foreign currency forward contracts are entered into to cover the Group's commitments in foreign currencies, the closing rates are used to translate the underlying foreign currency transactions into Ringgit Malaysia.

Financial Instruments (cont'd)

b) Financial instruments not recognised on the balance sheet (cont'd)

The related interest differentials under the swap agreements for interest rate swaps are recognised over the terms of the agreements in interest expense.

The underlying foreign currency assets or liabilities, which are effectively hedged by currency swap agreements, and designated as a hedge, are translated in the respective hedged currencies, at their closing rates.

c) Fair value estimation for disclosure purposes

The fair value of publicly traded securities is based on quoted market prices at the balance sheet date. For non-traded financial instruments, the Group uses various methods and makes assumptions that are based on market conditions. Comparisons are made to similar instruments that are publicly traded and estimates based on discounted cash flow techniques are also used. For other long term financial assets and liabilities, fair value is estimated by discounting future contractual cash flows at appropriate interest rates.

The book values of financial assets and liabilities with maturities of less than one year are assumed to approximate their fair values.

Segmental Reporting

The Group adopts business segment analysis as its primary reporting format and geographical segment analysis as its secondary reporting format.

Revenues are attributed to geographical segments based on location of customers where sale is transacted. Assets are allocated based on location of assets.

Segment revenues and expenses are those directly attributable to the segments and include any joint revenues and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by the segment and consist principally of property, plant and equipment net of accumulated depreciation, amortisation and impairment loss, land held for property development, property development costs, inventories and receivables. Segment liabilities comprise operating liabilities. Both segment assets and liabilities do not include income tax assets and liabilities and interest bearing instruments.

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's overall financial risk management objective is to optimise the value creation for shareholders. The Group seeks to minimise the potential adverse impacts arising from fluctuations in foreign currency exchange and interest rates and the unpredictability of the financial markets.

The Group operates within clearly defined guidelines that are approved by the Board of Directors and do not trade in financial instruments. Financial risk management is carried out through risk reviews conducted at all significant operational units. This process is further enhanced by effective internal controls, a group-wide insurance programme and adherence to the financial risk management policies.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2007

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

The main areas of financial risks faced by the Group are as follows:

Foreign currency exchange risk

The Group is exposed to foreign currency exchange risk when it enters into transactions that are not denominated in their functional currencies. The Group attempts to significantly limit its exposure for all committed transactions by entering into forward foreign currency exchange contracts within the constraints of market and government regulations.

Interest rate risk

Interest rate risks mainly arise from the Group's borrowings. The Group manages this risk through the use of fixed and floating rate debt and derivative financial instruments. Derivative financial instruments are used, where appropriate, to generate the desired interest rate profile.

Market risk

The Group, in the normal course of business, is exposed to market risks in respect of its equity investments. The Group manages its risk through established guidelines and policies.

Credit risk

Exposure to credit risk arises mainly from sales made on deferred credit terms. Credit terms offered by the Group range from 30 days to 60 days from date of transaction. Risks arising therefrom are minimised through effective monitoring of receivables and suspension of sales to customers which accounts exceed the stipulated credit terms. Credit limits are set and credit history is reviewed to minimise potential losses.

The Group also seeks to invest cash assets safely and profitably and buys insurance to protect itself against insurable risk. In this regard, counterparties are assessed for credit risks and limits are set to minimise any potential losses.

Liquidity risk

The Group practices prudent liquidity risk management to minimise the mismatch of financial assets and liabilities. The Group's cash flow is reviewed regularly to ensure that the Group is able to settle its commitments when they fall due.

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

31 December 2007

44. SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

a) Disposal of 1.01 billion ordinary shares of USD0.10 each in Star Cruises Limited ("SCL")

On 30 July 2007, the Group through its indirect wholly-owned subsidiary of the Company, Resorts World Limited ("RWL"), disposed 1.01 billion ordinary shares of USD0.10 each in SCL for a total cash consideration of HKD2.6462 billion (approximately RM1.172 billion) and generated a net gain of RM337.1 million for the Group. As a result of the disposal and as disclosed in Notes 20 and 21, the Group ceased to have significant influence over SCL effective 31 July 2007. The investment in SCL is accounted for in accordance with FRS 139: *Financial Instruments: Recognition and Measurement* and accordingly treated as an available-for-sale financial asset.

b) Dilution of equity investment in SCL

During the period from 1 January 2007 to 30 July 2007, SCL issued 255.0 million new ordinary shares of USD0.10 each to independent third parties and new ordinary shares of USD0.10 each upon conversion of part of its 2% Convertible Bonds due in 2008.

The above issuances of new ordinary shares by SCL resulted in a gain of dilution of RM81.0 million for the Group.

c) Non-renounceable Offer for sale of 593,719,711 ordinary shares of USD0.10 each in Genting International Public Limited Company ("GIPLC")

On 28 December 2007, the Company through CIMB Investment Bank Berhad ("CIMB") announced a proposal by RWL (an indirect wholly-owned subsidiary of the Company) to undertake a non-renounceable offer for sale of its entire equity interest of 593,719,711 ordinary shares of USD0.10 each in GIPLC ("Offer Shares") to the shareholders of the Company ("OFS") on a pro-rata basis of 1 Offer Share for every 10 existing ordinary shares of RM0.10 each in the Company held by the shareholders of the Company.

The OFS is conditional upon the following approvals being obtained:

- (i) the Securities Commission ("SC"); and
- (ii) Bank Negara Malaysia ("BNM"), on behalf of the shareholders of the Company.

All of the above were subsequently obtained. The Company through CIMB announced that both the SC and BNM have approved the OFS subject to the following SC's conditions:

- (i) CIMB to fully disclose in the prospectus to the Company's shareholders on the impairment loss of SGD454.6 million suffered by the GIPLC group in 2007 and its effect on the financial performance of the GIPLC group;
- (ii) CIMB/RWL to inform the SC upon completion of the OFS; and
- (iii) CIMB/RWL to fully comply with all the relevant requirements pertaining to the implementation of the OFS as specified in the SC's Policies and Guidelines on Issue/Offer of Securities.

On 28 February 2008, the Company together with RWL fixed the offer price of the Offer Share at RM0.88 per Offer Share. The offer price was arrived at after taking into consideration the RM-equivalent of RWL's average cost of investment in GIPLC, the estimated expenses relating to the OFS and fees for the transfer of shares chargeable by The Central Depository (Pte) Limited. The entitlement date to determine the shareholder of the Company who are entitled to participate in the OFS has been fixed on 17 March 2008.

Barring any unforeseen circumstances, RWL expects to complete the OFS by end of May 2008.
