GENTING MALAYSIA BERHAD NOTES TO THE INTERIM FINANCIAL REPORT – THIRD QUARTER ENDED 30 SEPTEMBER 2010

Part I: Compliance with Financial Reporting Standard ("FRS") 134

a) Accounting Policies and Methods of Computation

The interim financial report is unaudited and has been prepared in accordance with Financial Reporting Standard ("FRS") 134 "Interim Financial Reporting" and paragraph 9.22 of Bursa Malaysia Securities Berhad ("Bursa Securities") Listing Requirements. The financial information for the nine months ended 30 September 2010 have been reviewed by the Company's auditors in accordance with the International Standards on Review Engagements ("ISRE") 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2009. The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted for the annual audited financial statements for the financial year ended 31 December 2009, except for the adoption of new FRSs, amendments and IC Interpretations that are mandatory for the Group for the financial year beginning 1 January 2010 and the adoption of significant accounting policies following the events and transactions occurred during the financial period ended 30 September 2010.

The adoption of new FRSs, amendments and interpretations do not have a material impact on the interim financial information of the Group except for the adoption of the followings FRSs as set out below:

FRS 101 (revised) "Presentation of Financial Statements"

The revised standard prohibits the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity, requiring 'non-owner changes in equity' to be presented separately from owner changes in equity in a statement of comprehensive income which can be presented as a single statement or two statements (comprising the income statement and statement of comprehensive income). The Group has elected to present the statement of comprehensive income in two statements. As a result, the Group has presented all owner changes in equity in the consolidated statement of changes in equity whilst all non-owner changes in equity have been presented in the consolidated statement of comprehensive income. Certain comparative figures have been reclassified to conform with the current period's presentation. There is no impact on the results of the Group since these changes affect only the presentation of items of income and expenses.

FRS 139 "Financial Instruments: Recognition and Measurement"

The Group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables and available-for-sale. The classification depends on the nature of the asset and the purpose for which the asset was acquired. Management determines the classification of its financial assets at initial recognition. Set out below are the major changes in classifications of financial assets of the Group:

i) Available-for-sale financial assets

Non-current investments, previously measured at cost and subject to impairment, are now classified as available-for-sale financial assets. These are initially measured at fair value plus transaction costs and subsequently, at fair value. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the reporting date.

Changes in the fair values of available-for-sale debt securities denominated in foreign currencies are analysed into currency translation differences on the amortised cost of the securities and other changes; the currency translation differences are recognised in profit or loss and the other changes are recognised in other comprehensive income. If there is any objective evidence of impairment, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss previously recognised in profit or loss, is removed from equity and recognised in profit or loss. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss.

a) Accounting Policies and Methods of Computation (Cont'd)

FRS 139 "Financial Instruments: Recognition and Measurement" (Cont'd)

i) Available-for-sale financial assets (Cont'd)

Changes in fair values of available-for-sale equity securities are recognised in other comprehensive income, together with the related currency translation differences. A significant or prolonged decline in the fair value of the security below its cost is considered as an indicator that the asset is impaired. If any such evidence exists, the cumulative loss, measured as the difference between the acquisition cost and the current fair value, less any impairment loss previously recognised in profit or loss, is removed from equity and recognised in profit or loss. Impairment losses recognised in profit or loss on equity instruments classified as available-for-sale are reversed through other comprehensive income and not through profit or loss.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in other comprehensive income are included in profit or loss.

ii) Loans and receivables

Non-current receivables, previously measured at invoice amount and subject to impairment, are now classified as loans and receivables and measured at fair value plus transaction costs initially and subsequently, at amortised cost using the effective interest method.

When loans and receivables are impaired, the carrying amount of the asset is reduced and the amount of the loss is recognised in profit or loss. Impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the asset's original effective interest rate.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss.

iii) Fair value through profit or loss

Financial assets at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in profit or loss. Subsequent to initial recognition, these financial assets are measured at fair value at the date of the statement of financial position with changes in fair value recognised as gains or losses in profit or loss.

In accordance with the transitional provisions for first time adoption of FRS 139, the above changes in accounting policies have been accounted for prospectively and the comparatives as at 31 December 2009 are not restated. The effects of the changes on 1 January 2010 have been accounted for by adjusting the following opening balances of the Group:

The adoption of FRS 139 has no material impact on the results of the Group in the current financial period ended 30 September 2010.

FRS 8 "Operating Segments"

Prior to the adoption of FRS 8, the Group's segment reporting was based on a primary reporting format of business segments and a secondary reporting format of geographical segments. With the adoption of FRS 8, the segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision-maker. Certain comparative figures have been reclassified to conform with the current period's presentation.

Amendment to FRS 117 "Leases"

Prior to the adoption of the Amendment to FRS 117, leasehold lands were treated as operating leases. The considerations paid were classified and presented as leasehold land use rights in the statement of financial position. With the adoption of the Amendment to FRS 117, the classification of a leasehold land as a finance lease or an operating lease is based on the extent to which risks and rewards incident to ownership lie. Accordingly, the Group has reclassified its leasehold land to property, plant and equipment and investment properties. This change in classification has no effect on the results of the Group. The reclassification has been accounted retrospectively in accordance with the transitional provision and certain comparative balances have been restated as follows:

	As previously reported RM'000	Effect of adopting the Amendment to FRS 117 RM'000	As restated RM'000
Leasehold land use rights	115,051	(115,051)	_
Investment properties	292,994	44,212	337,206
Property, plant and equipment	3,490,634	70,839	3,561,473

IC Interpretation 13 "Customer Loyalty Programmes"

Award points accumulated by customers are treated as a separately identifiable component of the sales transactions in which they are awarded. Part of the revenue received or receivable is allocated to these points based on their fair value taking into account an estimated utilisation rate. The revenue attributed to the awarded points is deferred as a liability at the date of the initial sales transactions and only recognised when the points are redeemed.

Prior to the adoption of IC Interpretation 13, the revenue attributed to the awarded points is deferred as a liability at the date of the initial sales transactions based on cost per point. With the adoption of IC Interpretation 13, the fair value of the consideration received from the initial sales transactions is allocated between the award points and other components of the sale such that the award points are recognised at their fair value. Compared with the cost method applied as at 31 December 2009, the adoption of IC Interpretation 13 had no material impact on the prior year's financial statements of the Group and therefore, the impact is reflected in the current financial period ended 30 September 2010.

a) Accounting Policies and Methods of Computation (Cont'd)

Comparative Figures

Certain comparative figures in the statement of financial position of the Group have been reclassified to conform with the current quarter's presentation. These relate mainly to the following:

	As previously reported RM'000	Reclassification RM'000	As reclassified RM'000
Short term investments	2,146,611	(2,146,611)	-
Bank balances and deposits	3,104,428	(3,104,428)	-
Cash and cash equivalents		5,251,039	5,251,039

Significant accounting policies adopted during the financial period ended 30 September 2010 are set out below:

i) Intangible asset - Licence

The Group capitalises purchased licence. The licence, which has definite useful lives, is initially recognised at cost and subsequently carried at cost less accumulated amortisation and accumulated impairment losses. Such cost is amortised using the straight line method over the estimated useful life. The amortisation period and amortisation method are reviewed at each reporting date. The effects of any revision are recognised in profit or loss when changes arise. Where an indication of impairment exists, the carrying amount of licence is assessed and written down immediately to its recoverable amount.

ii) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

b) Seasonal or Cyclical Factors

The business operations of the Group's leisure and hospitality division are subject to seasonal fluctuations. The results are affected by major festive seasons and holidays.

c) Unusual Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flows

The unusual items included in the interim financial statements for the nine months ended 30 September 2010 related mainly to the fair value movement, impairment loss and foreign currency exchange losses of the Group's investments as shown below:

i) The Group had accounted for its investment in Genting Hong Kong Limited ("Genting HK") as an "available-for-sale financial asset" ("AFS") in compliance with FRS 139, which is measured at its fair value based on Genting HK's quoted share prices. Any gain or loss arising from a change in the fair value of the AFS has been recognised and presented as a component in other comprehensive income in the statement of comprehensive income.

A fair value gain of RM748.7 million in the investment in Genting HK is recognised directly in the statement of comprehensive income during the nine months ended 30 September 2010. This fair value gain of RM748.7 million represents the increase in Genting HK's share price to USD0.43 per share as at 30 September 2010 from the Group's carrying value of USD0.26 per share as at 31 December 2009.

c) Unusual Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flows (Cont'd)

- ii) The Group has further reviewed its investment in Walker Digital Gaming, LLC ("WDG") for potential impairment, in view of WDG's shift in its business and operational strategies to penetrate the competitive gaming equipment market. This shift in strategy resulted in a re-assessment of the Group's current carrying value of its investment in WDG. Consequently, an impairment loss of RM108.0 million, being the excess of the carrying value over the recoverable amount, has been charged to the profit or loss in the first quarter ended 31 March 2010.
- Foreign currency exchange losses of RM282.2 million during the nine months ended 30 September 2010 as disclosed in the statement of comprehensive income arose from the translation of the Group's net investments in foreign operations.
- iv) Net fair value loss on financial assets at fair value through profit or loss ("FVTPL") of RM13.0 million during the nine months ended 30 September 2010 arose from the changes in fair value of the Group's investments in FVTPL.

Other than the above, there were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group for the nine months ended 30 September 2010.

d) Material Changes in Estimates

There were no material changes in estimates of amounts reported in prior financial years.

e) Changes in Debt and Equity Securities

- ii) At the Annual General Meeting of the Company held on 9 June 2010, the shareholders of the Company had approved, amongst others,
 - the proposed renewal of the authority for the Company to purchase its own shares of an aggregate amount of up to 10% of its prevailing issued and paid-up share capital at anytime;

On 15 June 2010, GENT informed the Company that the Securities Commission ("SC") has, on 14 June 2010, approved the Proposed Exemption subject to the requirement that GENT and persons acting in concert with it must at all times disclose to the SC all acquisitions, purchases or entitlements to acquire or purchase voting shares of the Company made by them in a 12-month period from 14 June 2010.

e) Changes in Debt and Equity Securities (Cont'd)

During the nine months ended 30 September 2010, the Company had repurchased a total of 36,450,000 ordinary shares of 10 sen each of its issued share capital from the open market for a total consideration of RM111.1 million. The repurchased transactions were financed by internally generated funds. The repurchased shares are held as treasury shares in accordance with the requirements of Section 67A (as amended) of the Companies Act, 1965.

f) Dividends Paid

Dividends paid during the nine months ended 30 September 2010 is as follows:

	RM'000
Final dividend for the year ended 31 December 2009 paid on 21 July 2010	
4.3 sen less 25% tax per ordinary share of RM0.10 each	183,776

g) Segment Information

As mentioned in Note (a) above, the segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker. The performance of the operating segments is based on a measure of adjusted earnings before interest, tax, depreciation and amortisation (EBITDA). This measurement basis excludes the effects of non-recurring items from the reporting segments, such as fair value gains and losses and impairment losses. Interest income is not included in the result for each operating segment.

a) Quarter ended 30 September 2010 compared with quarter ended 30 September 2009

Total revenue decreased by 10% to RM1,202.9 million mainly due to lower business volume and weaker luck factor in the premium players business in the current guarter ended 30 September 2010.

Profit before taxation was RM416.2 million, lower by RM54.4 million or 12%, mainly due to the following:

- (i) lower business volume coupled with weaker luck factor in the premium players business; and
- higher expenses of RM39.3 million which included the start up costs for the development and operation of a video lottery facility at the Aqueduct Racetrack in the City of New York, United States of America.

However, the decrease in profit before taxation was mitigated by:

- fair value gain of RM19.4 million arising from the Group's investments in financial assets at fair value through profit or loss ("FVTPL");
- (ii) higher interest & investment income by RM11.8 million; and
- (iii) gain of RM7.4 million on disposal of AFS financial assets.

In addition, there was an impairment charge of RM48.6 million recorded on the Group's investment last year.

1) Review of Performance (Cont'd)

b) Financial period for the nine months ended 30 September 2010 compared with nine months ended 30 September 2009

Total revenue increased by 2% to RM3,774.6 million mainly due to overall better luck factor in the premium players business during the nine months ended 30 September 2010.

Profit before taxation was RM1,228.2 million, lower by RM67.0 million or 5%, mainly due to the following:

- (i) higher impairment loss on the Group's investments of RM29.0 million during the current financial period:
- (ii) higher expenses of RM38.1 million which included the start up costs for the development and operation of a video lottery facility in New York;
- (iii) fair value loss of RM13.0 million arising from the Group's investments in FVTPL; and
- (iv) lower gain on disposal of investments by RM11.3 million during the current financial period.

The decrease in profit before taxation was mitigated by:

- (i) overall better luck factor in the premium players business; and
- (ii) higher interest & investment income by RM31.9 million.

Material Changes in Profit Before Taxation for the Current Quarter as compared with the Immediate Preceding Quarter

The Group registered a higher profit before taxation of RM416.2 million in the current quarter ended 30 September 2010 compared with RM414.2 million in the preceding quarter ended 30 June 2010. The higher profit before taxation was mainly due to fair value gain of RM19.4 million from the Group's investments in FVTPL this quarter compared to the fair value loss of RM34.0 million in the preceding quarter.

However, the higher profit before taxation was offset by lower volume of the premium players business and higher expenses of RM43.4 million which included the start up costs for the development and operation of a video lottery facility in New York.

3) Prospects

The Group's performance in Malaysia is expected to be affected by greater regional competition for the remaining period of 2010. The Group will continue to evaluate its strategies and in particular will increase its marketing activities to address the growing competition.

The Group's UK casino business which was acquired in October 2010 will not have significant impact on the Group's performance for the remaining period of 2010.

The Group did not issue any profit forecast or profit guarantee for the year.

PRESS RELEASE

For Immediate Release

GENTING MALAYSIA BERHAD ANNOUNCES FINANCIAL RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2010

KUALA LUMPUR, 25 NOVEMBER 2010 – Genting Malaysia Berhad ("Genting Malaysia" or the "Group") today announced its third quarter 2010 ("3Q10") financial results, posting total revenue of RM1,202.9 million, down 10% from the same period in 2009. The decrease in revenue was mainly attributed by the lower business volume and weaker luck factor in the premium players business.

For the nine months ended 30 September 2010, the Group's revenue was up 2% to RM3,774.6 million from RM3,716.2 million in the previous corresponding year. The increase in revenue was mainly due to overall better luck factor in the premium players business during the nine months ended 30 September 2010.

The Group recorded a net profit of RM336.4 million for 3Q10, a 6% decrease compared to the preceding quarter. The decrease in net profit is a result of lower business volume coupled with weaker luck factor in the premium players business and higher expenses of RM39.3 million which included the start up costs for the development and operation of a video lottery facility in New York. However, the decrease in net profit was mitigated by the fair value gain arising from the Group's investments of RM19.4 million, higher interest and investment income in this quarter by RM11.8 million and gain on disposal of investments of RM7.4 million. In addition, there was an impairment charge of RM48.6 million recorded on the Group's investment in the same quarter last year.

The Group's net profit for nine months ended 30 September 2010 decreased 5% year-on-year to RM914.2 million. This is mainly attributable to the higher impairment loss on the Group's investment of RM29.0 million during the current financial period, higher expenses of RM38.1 million which included the start up costs for the development and operation of a video lottery facility in New York, fair value loss of RM13.0 million arising from the Group's investments this year and lower gain on disposal of investments by RM11.3 million during the current financial period. The decrease in net profit was mitigated by overall better luck factor in the premium players businesses, higher interest and investment income by RM31.9 million.

The Group recently completed its proposed acquisition of casino businesses in the United Kingdom from Genting Singapore PLC on the 15 October 2010. This acquisition will not have any significant impact on the Group's performance for the remaining period of 2010. Whilst in the United States of America, Genting New York held its groundbreaking ceremony on the 28 October 2010, marking the start and development of a video lottery facility at the Aqueduct Racetrack in the city of New York.

The Group's performance in Malaysia is expected to be affected by greater regional competition for the remaining period of 2010. The Group will continue to evaluate its strategies and in particular will increase its marketing activities to address the growing competition.
